NATUREDESIGN

shaped by nature

Da tre generazioni scegliamo legni di recupero rari e preziosi, li restauriamo e li plasmiamo con perizia artigianale per accostarli a vetri e metalli traducendoli in un progetto di design unico ed originale.
La passione per la materia di Nature Design ha fatto della sostenibilità il suo modo di essere e di agire.

For three generations, we have been selecting rare and precious reclaimed wood, restoring it and shaping it with craftmanship, and combining it with glass and metal to transform it into a unique and original design.
Nature Design's passion for this material has brought sustainability right to the heart of its being.

Tutto ciò che facciamo ha un impatto sulle persone e sul Pianeta; quello che noi ci proponiamo è ricercare il piacere di vivere; far sentire bene l'uomo nell'ambiente in cui abita. Sappiamo che un prodotto di qualità e resistente si può tradurre in un minor consumo di energia, in un minor spreco di acqua e in una minore produzione di rifiuti. Utilizziamo una metodologia di lavorazione più cosciente che rispetti la connotazione naturale del materiale. Ottenere di più con meno risorse, senza scendere a compromessi su qualità e resistenza. La nostra mission è recuperare aggiungendo il design per valorizzare la materia da cui si parte.

Everything we do has an impact on people and the planet. We aim to seek out the pleasure of living, making people feel good about their surroundings.
We know that a quality and durable product can result in less energy consumption, less water wastage and less waste production. We use a more conscious processing technique that respects the natural character of the material - getting more from fewer resources without compromising on quality and durability.
Our mission is to add design to reclaimed materials, enhancing that same material.

La nostra epoca è segnata dal consumo di suolo e materie prime, siamo convinti che riciclare sia la chiave di volta; il valore del materiale sta anche nella sua storia, è intrinseco nel suo essere già stato qualcos'altro, un materiale può per questo essere un materiale prezioso anche se di scarto.
Oltre ad essere bello, il legno è anche durevole, rinnovabile e riciclabile. Utilizzando il concetto di riuso il più possibile, impieghiamo i materiali naturali cercando di riutilizzare il più possibile materiale di scarto, dandogli nuova vita.

We live in an age marked by the consumption of land and raw materials. We are convinced that recycling is the key. A material's value also lies in its history, and it is embedded in its having already been something else. A material can therefore be valuable even if it has been discarded.
Besides being beautiful, wood is also durable, renewable and recyclable. Applying the concept of reuse as much as is feasible, we use natural materials and strive to reuse discarded material to the full, giving it new life.

cozy and warm

L'ambiente Cozy and warm è comodo e confortevole dalla connotazione intima e profonda, le linee sono morbide, lo spazio è fluido ed amorfo.
Uno spazio con forme sagomate che richiamano modelli biomorfici che persistono in natura diventa interessante e accattivante, contemplativo o addirittura avvolgente.
L'ambiente Cozy ha una preferenza visiva per le forme organiche ed amorfe.

The "Cozy and Warm" setting is comfortable with a deep, intimate atmosphere. The lines are soft, and the space is fluid and open.
A space with shaped and moulded forms that echo biomorphic patterns found in nature becomes interesting and captivating, contemplative or even enveloping.
The Cozy setting shows a visual preference for organic and shapeless forms.

timeless

Spazio dal forte impatto visivo e dal carattere deciso.
Questo ambiente pone il focus sull'attitudine di certi materiali ad essere resistenti e durevoli.
Il marmo è resistente nel senso fisico del termine, nonostante lo scorrere imperturbabile del tempo.
Il legno secolare lo è in senso simbolico, poichè viene riutilizzato e acquisisce un valore intrinseco per il suo essere già stato qualcos'altro.
Cerchiamo costantemente metodi nuovi e più intelligenti di progettare e realizzare i nostri prodotti per generare il minor impatto sul pianeta.

A space with a strong visual impact and bold character.
This setting focuses on the durability and resistance of certain materials.
Marble is physically durable, despite the relentless passage of time. Centuries-old wood has a symbolic durability; its reuse confers an intrinsic value because it has already been something else. We are constantly looking for new and smarter ways to design and manufacture our products to have the least impact on the planet.

lightness

La leggerezza del vetro cotto è l'elemento caratterizzante di questo scenario; ha uno spirito essenziale che rappresenta la sostanza di questo materiale. Trasparente e cristallino, quasi come l'acqua, assume riflessi che trasformano le geometrie razionali e generano sensazioni vibranti.
Lo spazio si dimostra aperto, con segni rigorosi e un linguaggio minimale dalla luce chiara e dalle superfici mosse. Ambiente dall'atmosfera eterea, dalle morbide sfumature che infondono un'esperienza sana e rilassante.

The lightness of fired glass is the defining element of this scenario. It has a minimalist spirit that represents the essence of this material. Transparent and crystalline, almost like water, it takes on reflections that transform rational shapes and generate vibrant sensations.
The space appears open, with clear marks and a minimalist design with bright light and wavy surfaces.
An ethereal, softly nuanced setting that provides a healthy, relaxing experience.
